

Brainstorming Ideas

PocketSmart AI | Team ID 6aba1a835015c35b98635933 | Team Leader: Rohith S | Members: Heedhesh R, Ashwin S, Chandru T

Step 1: Idea Listing

S.No	Team Member	Idea / Suggestion	Category	Group
1	Rohith S	Home furnishing planner that splits a total budget across rooms and item categories	Planner	1
2	Heedhesh R	Event planner that estimates food, venue and decoration costs	Planner	2
3	Ashwin S	Jewelry recommender based on occasion, metal and style	Planner	3
4	Ashwin S	Optional outfit-image analysis to guide jewelry styling	AI feature	3
5	Chandru T	Recommendation history so users can revisit plans	Account feature	4
6	Rohith S	Platform guidance (Amazon, Flipkart, IKEA, Swiggy, Zomato) for further research	Guidance	1
7	Chandru T	Offline fallback plan when the AI service is unavailable	Reliability	5
8	Heedhesh R	Direct purchasing and venue booking inside the app	Commerce	6

The per-member attribution above is a placeholder. Edit it to reflect who actually suggested each idea.

Design Principles

- Ask only for inputs relevant to the selected planning task.
- Show the budget and major allocations clearly.
- Treat generated prices as estimates, not live quotes.
- Keep the app usable when external AI services fail.
