Field	Details
Team ID	6aba1a835015c35b98635933
Project Name	PocketSmart AI - Your Smart Budget Recommendation Assistant
Team Leader	Rohith S
Team Members	Heedhesh R, Ashwin S, Chandru T

Overview

People planning a home makeover, a party or a jewelry purchase have a fixed budget but must compare many vendors and marketplaces. Information is scattered, and it is hard to decide how much to spend on each need. PocketSmart AI takes a budget and preferences and returns an organised, category-wise starting plan.

Customer Problem Statements

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS -1	A first-time home owner	Furnish my rooms within a fixed budget	I overspend on one item and run short for the rest	I do not know how to split money across furniture, lighting and decor	Overwhelmed and anxious
PS -2	A person organising a birthday or family function	Plan catering, decoration and venue for my guests	Costs add up and I miss items	Prices are spread across many vendors and I have no first-pass breakdown	Stressed and unsure
PS -3	A shopper buying jewelry for a wedding or festival	Choose pieces that suit my occasion and outfit	I cannot tell what fits my budget and style	There are too many options and no personalised guidance	Confused and indecisive
PS -4	A user who has made several plans	Return to earlier plans	Plans are lost when I close the page	Most tools do not save recommendations per user	Frustrated

Target Users

- Individuals and households planning purchases with a defined budget
- People organising events who need a first-pass cost breakdown
- Shoppers who want style-aware jewelry suggestions, with optional outfit matching

Boundaries

The application generates advisory suggestions. It does not purchase products, guarantee prices, reserve venues, or replace professional financial advice.
