

Bug Fixes

PocketSmart AI | Team ID 6aba1a835015c35b98635933 | Team Leader: Rohith S | Members: Heedhesh R, Ashwin S, Chandru T

ID	Date	Issue	Fix	Verification
BF-01	2026-09-29	Startup required a Gemini key	Made Gemini optional; added offline plans	No-key startup and planner tests pass
BF-02	2026-09-29	Accounts and history were in memory and shared across users	Added SQLite tables with per-user queries and foreign keys	Persistence and isolation tests pass
BF-03	2026-09-29	Token kept in localStorage while logout cleared only a cookie	Login sets an HttpOnly cookie; logout clears it	Browser and API auth tests pass
BF-04	2026-09-29	AI strings were inserted into HTML	Escape generated and fallback text	Injection probe showed literal text
BF-05	2026-09-29	Party plan left budget unallocated when no services chosen	Added flexible-needs category and contingency	Regression test passes
BF-06	2026-09-29	Navigation overflowed at 390 px	Let nav items wrap	No horizontal overflow
BF-07	2026-09-29	/favicon.ico returned 404	Added SVG icon and redirect	Redirect test passes
BF-08	2026-09-29	Bcrypt ignored password bytes past 72	Reject passwords over 72 bytes	72 accepted, 73 rejected
