

Future Enhancements

PocketSmart AI | Team ID 6aba1a835015c35b98635933 | Team Leader: Rohith S | Members: Heedhesh R, Ashwin S, Chandru T

- Validate Gemini output against typed schemas and verify totals and links.
- Add request limits, timeouts and retries for Gemini, with clearer quota errors.
- Password reset and email verification.
- Configurable regions and currencies, refreshable product prices.
- Image privacy notices and retention controls.
- Move from SQLite to PostgreSQL for higher concurrency.
- Browser tests and continuous integration.
- Accessibility improvements and localisation (Tamil, Hindi).
- Live performance and load testing.
